

What happens with my data?

The information you share through this assessment is confidential and will only be viewed by the clinical staff performing the screening. If you have given permission through the screening survey, your assessment results will be shared with your lawyer or mediator. These results do not include your original responses to questions, which remain confidential. You can withdraw this permission at any time before the assessment ends by emailing screening@sagesse.org.

Sagesse looks at trends in aggregate response data for the purposes of quality assurance and improvement for this assessment and for the services we provide. This aggregate data does not include any personal information or individual responses. We keep an electronic copy of survey data for 10 years, in accordance with regulations for the social work profession.
